

TEST REPORT

Report Number : 16-0524-007-01-5
Applicant : CELEX HOLDINGS LIMITED

Date Received : 2016/05/24
Sample Name : FX001 FELEX NATURAL ENZYMES
Sample Info : LOT:A1605001
MFG:20160520
EXP:20190519
Date Issued : 2016/06/06

Applicant Address : UNIT B, 10/F., SUN HING STEEL FURNITURE COMMERCIAL BUILDING, 53-55 TONG MI ROAD.,
TAI KOK TSUI, KOWLOON, HONG KONG.

Test Period : 2016/05/24 ~ 2016/06/06

Item(s)	Result(s)	Remark(s)
Pesticide residual test(310)	N.D.	As table*

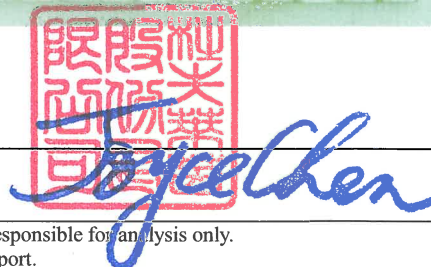

~~~The End~~~

Method :

- (1)Refer to AOAC official method 2007.01 Pesticide Residues in Foods by Acetonitrile Extraction and Partitioning with Magnesium Sulfate.
- (2)Refer to MOHW NO. 1031900615, 2014.07.03, Method of Test for Pesticide Residues in Foods-Multiresidue Analysis (5)

\*Table explanation : Pesticides test items and Limit of quantification as the table.

Authorized Representative:

1. Samples and names were provided by the client. The lab was responsible for analysis only.
2. The analysis results are only effective for the samples in this report.
3. The report is for reference only and not for commercial or legal purposes
4. Contents of the report may only be reproduced in full. Partial copies may not be made without permission.
5. This report will be rendered invalid if altered.
6. N.D. means Non Detected.
7. Positive means Detected. Negative means Non Detected.
8. Not all items in the report were accredited by TFDA other than the specified items.

Limit of quantification list for capsule and powder type food. (Table)  
(310 test items)

| No. | Item(s)             | Limit of Quantification (ppm) | No. | Item(s)             | Limit of Quantification (ppm) |
|-----|---------------------|-------------------------------|-----|---------------------|-------------------------------|
| 1   | 3-keto Carbofuran   | 0.05                          | 51  | Chlorfenapyr        | 0.10                          |
| 2   | 3-OH Carbofuran     | 0.05                          | 52  | Chlorfluazuron      | 0.05                          |
| 3   | Abamectin           | 0.05                          | 53  | Chlorpropylate      | 0.02                          |
| 4   | Acephate            | 0.05                          | 54  | Chlorothalonil      | 0.10                          |
| 5   | Acetamiprid         | 0.05                          | 55  | Chlorpropham        | 0.05                          |

Limit of quantification list for capsule and powder type food. (Table)  
(310 test items)

| No. | Item(s)              | Limit of Quantification (ppm) |
|-----|----------------------|-------------------------------|
| 300 | Vinclozolin          | 0.05                          |
| 301 | XMC (Macbal)         | 0.05                          |
| 302 | Xylylcarb            | 0.05                          |
| 303 | Zoxamide             | 0.05                          |
| 304 | $\alpha$ -BHC        | 0.03                          |
| 305 | $\alpha$ -Endosulfan | 0.05                          |

| No. | Item(s)                 | Limit of Quantification (ppm) |
|-----|-------------------------|-------------------------------|
| 306 | $\beta$ -BHC            | 0.05                          |
| 307 | $\beta$ -Endosulfan     | 0.10                          |
| 308 | $\gamma$ -BHC (Lindane) | 0.05                          |
| 309 | $\delta$ -BHC           | 0.05                          |
| 310 | $\lambda$ -Cyhalothrin  | 0.05                          |

Remark:

1. Pesticide residues testing method refer to AOAC Official Method 2007.01.& MOHW No.1031900615 Method of Test for Pesticide Residues in Foods-Multiresidue Analysis (5).
2. This LOQ list is applicable to capsule and powder type food.
